Wyss Coin

# INTRODUCTION

Welcome to Wyss Coin, we are a team of blockchain and cryptocurrency experts, we have more than 8 years of experience. Our project is to make a site with NFTs and play to earn (Rpg). The objective is to bring together as many artists as possible, whether they are well known or moderately known in several fields such as sport, painting, photography, youtubers, gamers, etc. We also want to give the possibility for each artist to express their creativity and their art without having any blockages and this thanks to the blockchain. A trophy and a "Wyss grammy" diploma each year will be distributed to the one who has scored the most points and the most sales in the world ranking. A swap directly on the site to exchange the Wyss Coin crypto and also a metamask account integrated also on the site.

# NFT

The rise in the price of cryptocurrencies during the COVID-19 pandemic is often cited as a driver of the growth of the NFT market. Sales of these digital objects (digital artwork, GIFs, tweet, etc.) authenticated on the blockchain would have reached \$ 9.2 billion at the end of October 2021, against \$ 162 million at the start of the year. The market would have even exceeded 10.7 billion dollars according to other sources (DappRadar). That's roughly equivalent to the revenue of a company like Chanel (\$ 10.1 billion), or the size of the 3D printing market (\$ 12 billion), a technology that is over 30 years old.

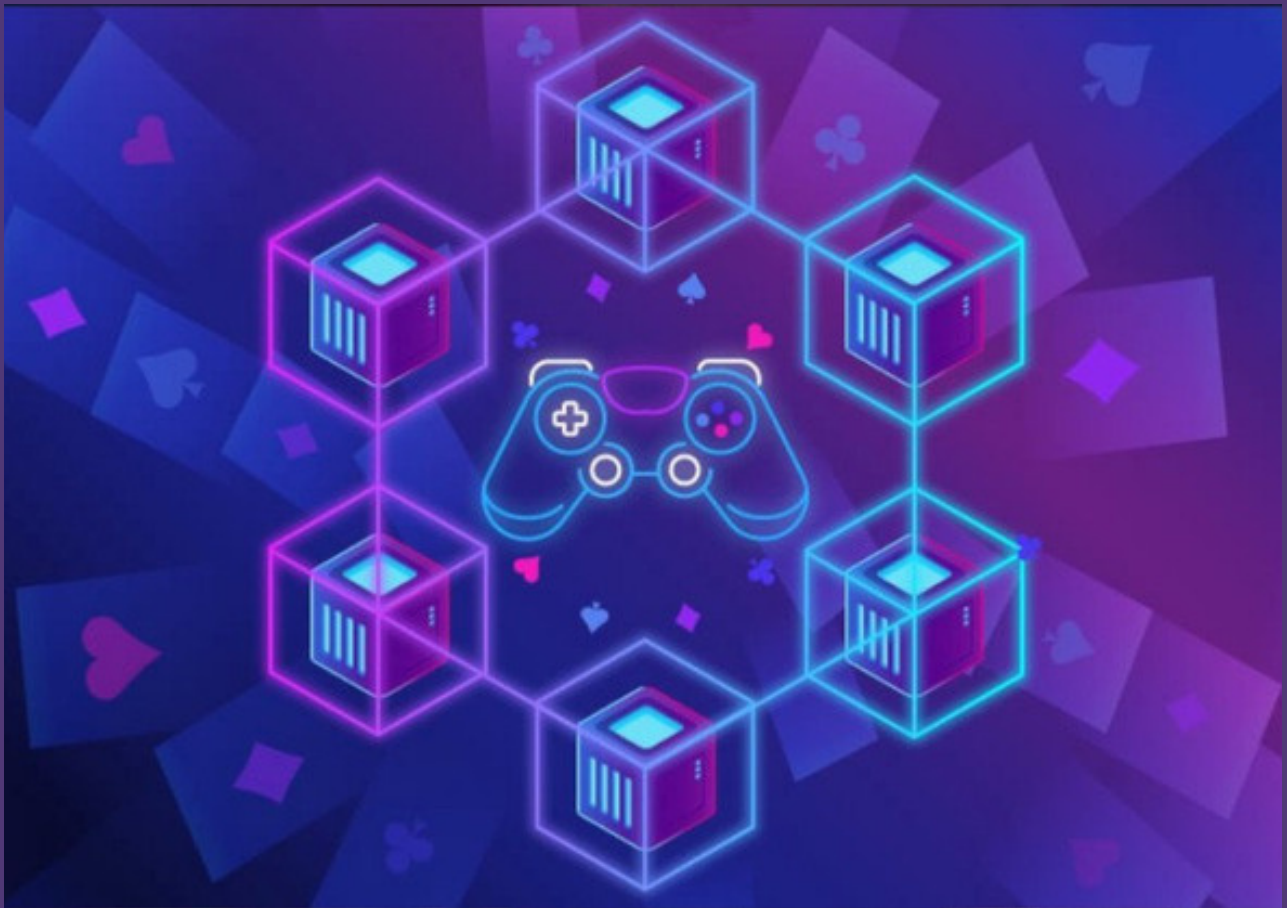

A market explosion in a few months The NFT appeared to him in 2017, and its use only accelerated from 2020-2021. Christie's sale of a digital work by artist Beeple in NFT form for \$ 69.3 million marks the start of the market boom in March 2021. tweet, GIF, music video, song , an avatar for a profile picture, an item in a video game ... is not sold in this form. Wyss Coin is therefore naturally positioned on this promising market and wishes to become one of the leading players in the NFT market.

# Play to Earn

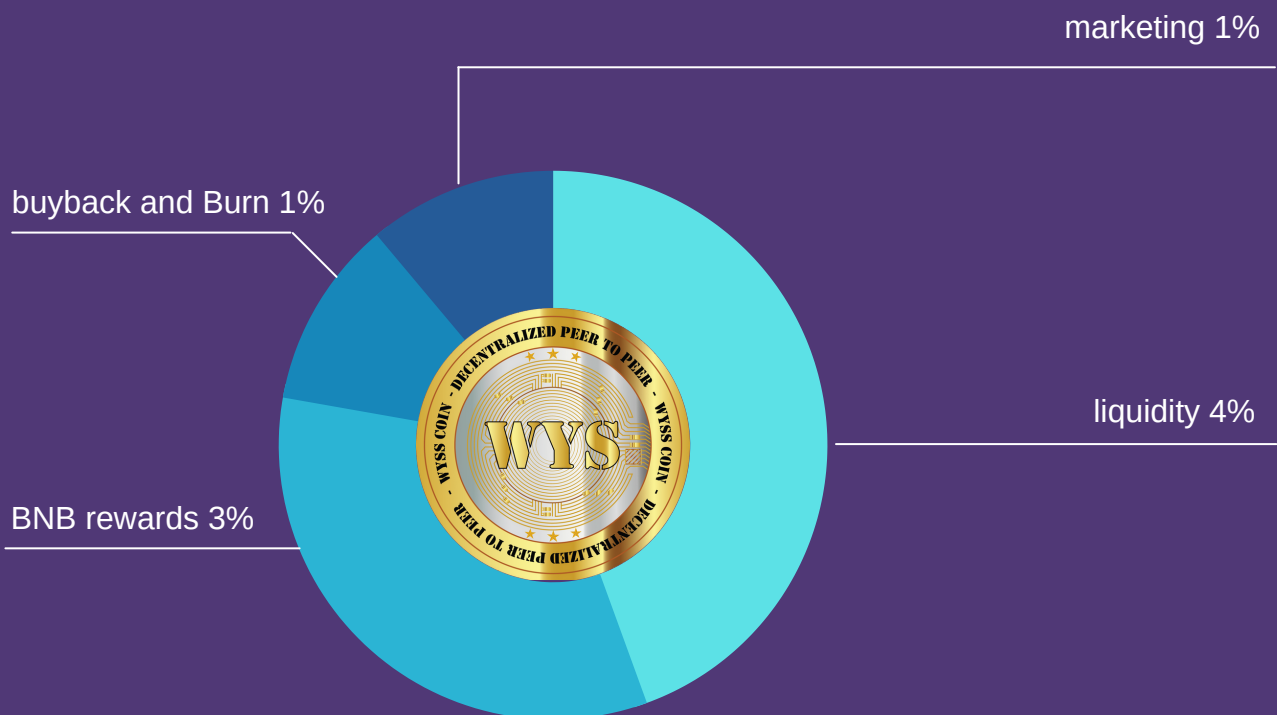

Understand NFTs to understand Play-to-Earn. Games are a far cry from the world's largest entertainment industry. In 2020, the gaming industry achieved a staggering \$ 175 billion in revenue worldwide - far more than the movie and music industry combined. Previously, games were seen only as a way to have fun. But today, we are witnessing the emergence of a new category of games which, in addition to being fun, constituting an interesting investment and also making it possible to earn money while having fun.

Wyss Coin also wishes to enter this new market which is Play to Earn by offering a 3d game with VR.
